Contract Address: [TU4T4nyQHfYt4UMeHWQ9FxykndPSH4x9zG](#).

The project was created as a **response to scams and financial pyramids** in crypto. Its mission is to **satirize scams** and **educate the community**, proving that a token can exist without profit promises or manipulation.

2. Project Characteristics

- **No developer control** – the contract operates within SunPump's **bonding curve mechanism**. There is no way to change the code, token supply, or liquidity manually.
 - **No traditional LP** – price and liquidity are automatically determined by the SunPump smart contract.
 - **Fair launch** – no premine or developer allocation. The creator holds only **1.49% of supply**, purchased at launch like everyone else.
 - **Community purpose** – building an **anti-scam movement** and promoting transparency in crypto.
-

3. Mission and Purpose

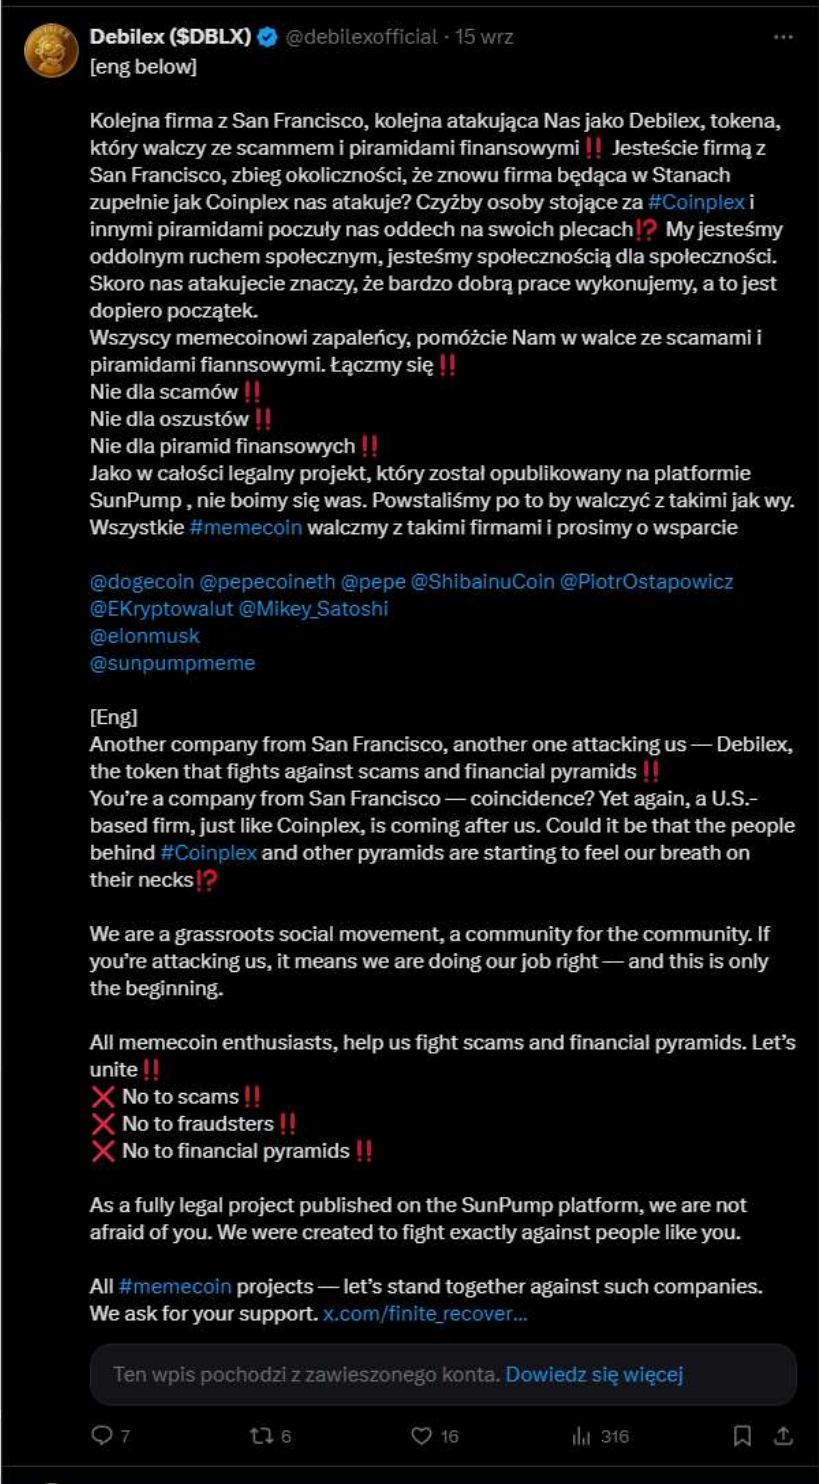

\$DBLX is **not an investment promising profits**. It is an **educational and community tool** that:

- exposes scams and financial pyramids,
 - unites victims and aware investors,
 - promotes DYOR (Do Your Own Research).
-

4. Narrative and Communication

From the very beginning, the \$DBLX community has been focused on **anti-scam messaging**. Examples from posts:

- 15.09.2025 – response to pyramid accusations: \$DBLX fights scammers and unites the community.

Another company from San Francisco, another one attacking us — Debilex, the token that fights against scams and financial pyramids !!

You're a company from San Francisco — coincidence? Yet again, a U.S.-based firm, just like Coinplex, is coming after us. Could it be that the people behind #Coinplex and other pyramids are starting to feel our breath on their necks!?

We are a grassroots social movement, a community for the community. If you're attacking us, it means we are doing our job right — and this is only the beginning.

All memecoin enthusiasts, help us fight scams and financial pyramids. Let's unite !!

✗ No to scams !!
✗ No to fraudsters !!
✗ No to financial pyramids !!

As a fully legal project published on the SunPump platform, we are not afraid of you. We were created to fight exactly against people like you.

All #memecoin projects — let's stand together against such companies. We ask for your support. x.com/finite_recover...

Wersja polska

1. Wprowadzenie

\$DBLX to społecznościowy memecoin uruchomiony 28 sierpnia 2025 r. na platformie **SunPump** (blockchain TRON).

Adres kontraktu: **TU4T4nyQHfYt4UMeHWQ9FxykndPSH4x9zG**.

Projekt powstał jako **odpowiedź na oszustwa i piramidy finansowe** w świecie kryptowalut. Jego celem jest **satyra na scamy** oraz **edukacja społeczności**, aby pokazać, że można budować token bez obietnic zysków i bez manipulacji.

2. Charakterystyka projektu

- **Brak kontroli dewelopera** – kontrakt działa w ramach mechanizmu **bonding curve** SunPump. Nie istnieje możliwość ręcznego zmieniania kodu, podaży tokenów ani manipulacji płynnością.
 - **Brak klasycznego LP** – cena i płynność ustalane są automatycznie przez smart kontrakt SunPump.
 - **Fair launch** – token wystartował bez premine i bez alokacji deweloperskiej. Twórca posiada tylko **1,49% supply**, zakupione na takich samych zasadach jak reszta społeczności.
 - **Cel społecznościowy** – budowa ruchu **anty-scama** i promowanie transparentności w kryptowalutach.
-

3. Cel i misja

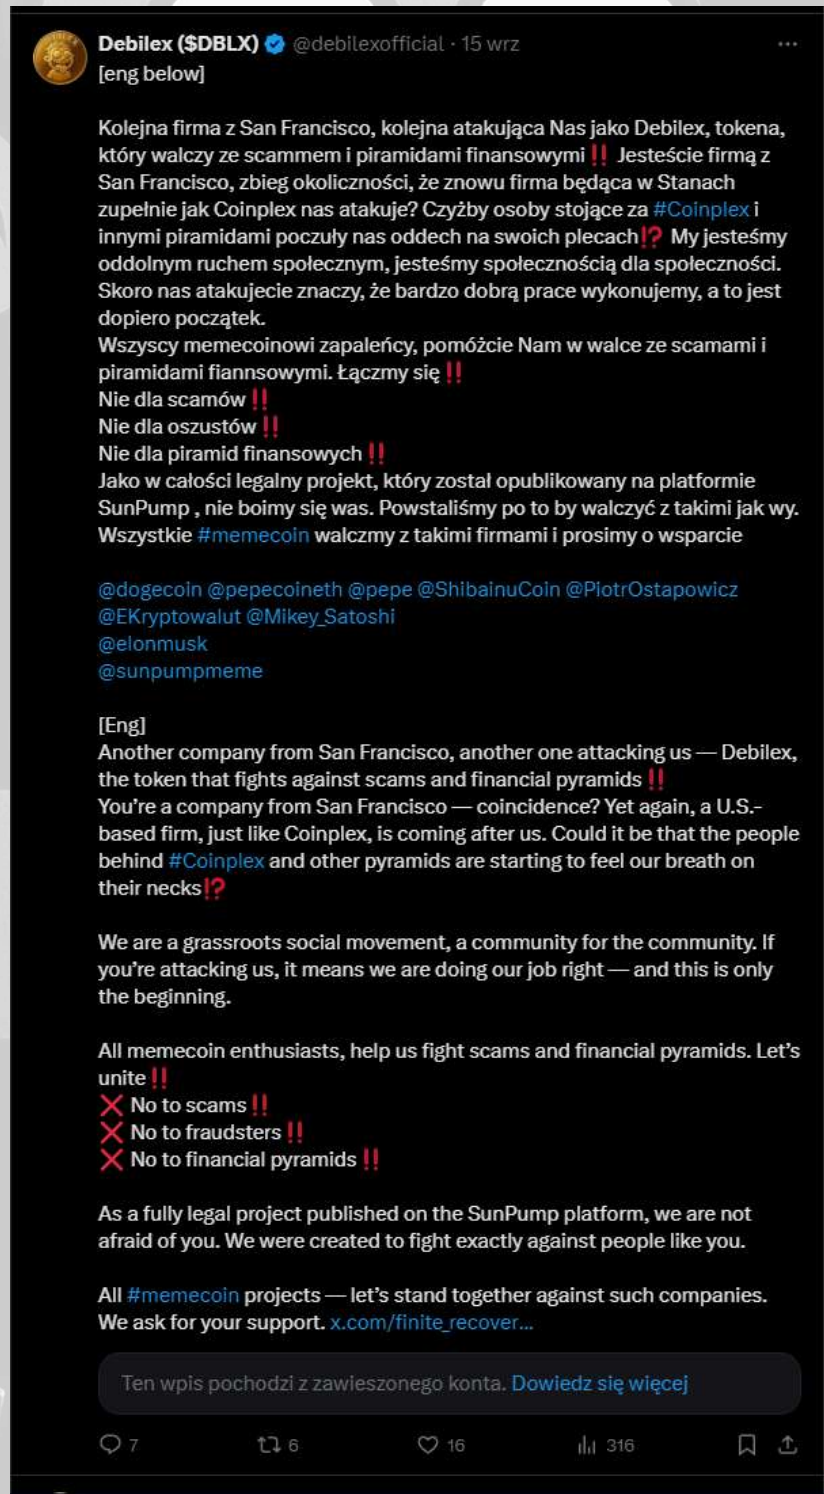

\$DBLX nie jest inwestycją obiecującą zysk. To **narzędzie edukacyjne i społecznościowe**, które:

- piętnuje scamy i piramidy finansowe,
 - jednoczy poszkodowanych i świadomych inwestorów,
 - promuje zdrową kulturę DYOR (Do Your Own Research).
-

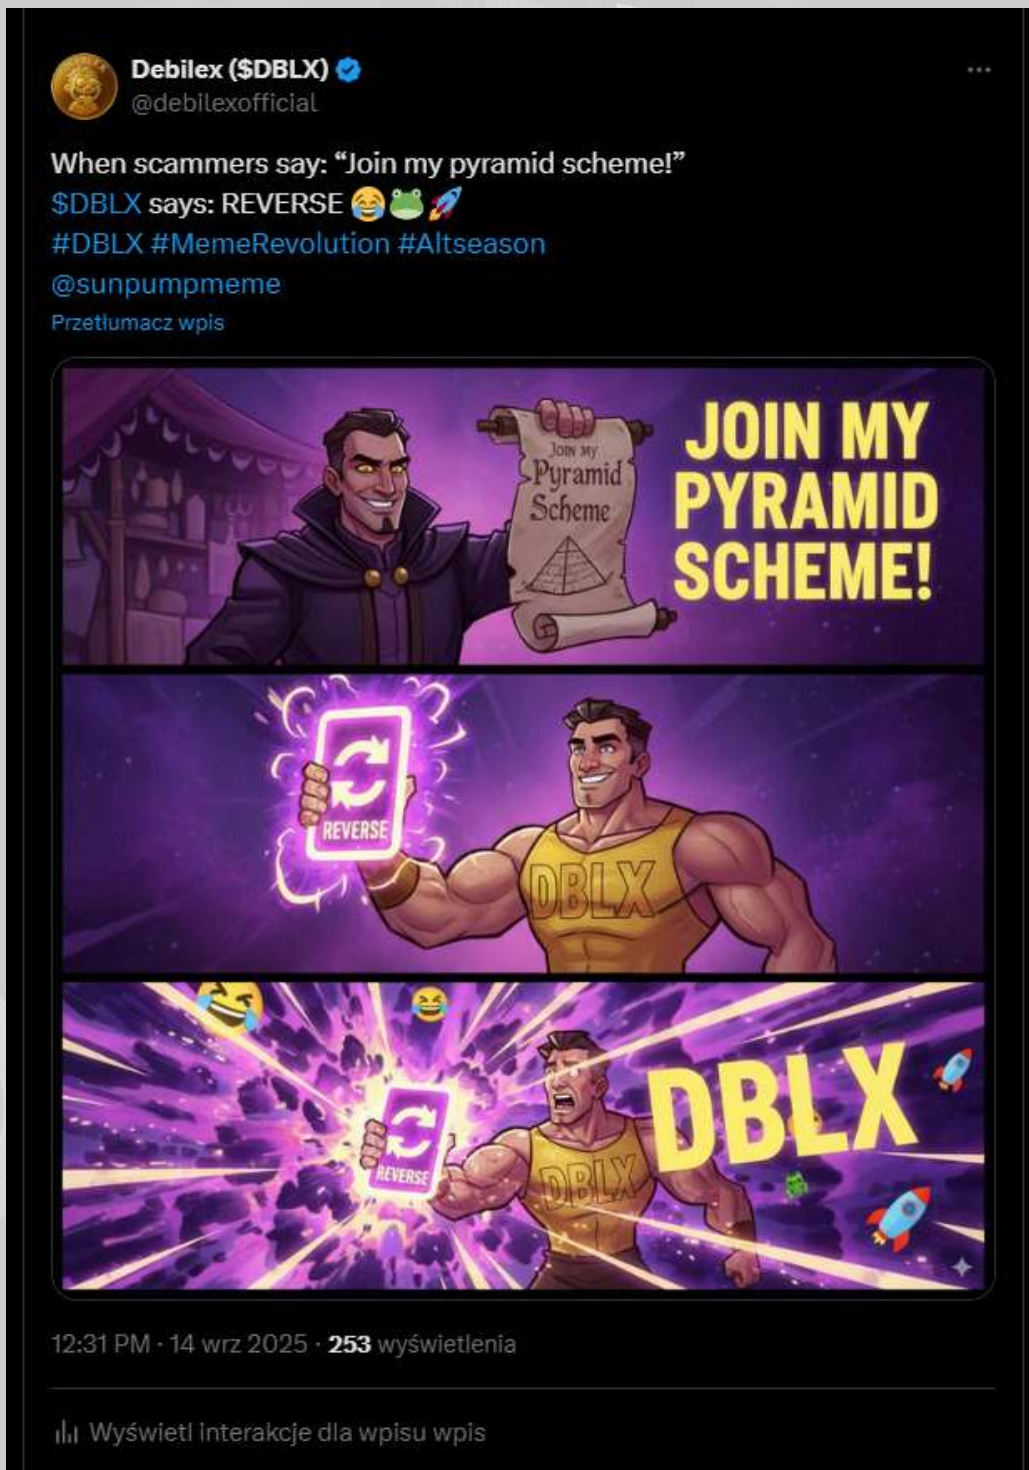

4. Narracja i komunikacja

Od samego początku społeczność \$DBLX opiera się na **przekazie anty-scam**. Przykłady z postów:

- 15.09.2025 – odpowiedź na oskarżenia o piramidę: \$DBLX walczy z oszustami i jednoczy społeczność.

- 14.09.2025 – humorystyczne „odwrócenie piramidy” – symbol oporu wobec scammerów.

\$DBLX

- 08.09.2025 – wezwanie do budowy „armii anti-scram warriors”.
